

£2M New Build Extension:

Spring 2008 saw the completion of the new Reception and Sixth Form Centre housing a new state-of-the-art Lecture Theatre and ICT Room, which was constructed as part of the Framework Agreement with Isle of Wight Council.

This scheme was developed to incorporate innovative low energy design solutions, comprising the following:

- A new Lecture Hall with underfloor heating and variable air volume displacement ventilation comfort cooling
- New ICT Rooms and Common Rooms with heat recovery ventilation
- New solar hot water heating
- Specialist Atrium ventilation system

The new Lecture Hall was designed to be used as a flexible space with retractable seating to suit high and low occupancy activities.

Sixth Form Centre, Sandown High School, Sandown, Isle of Wight
